- DLG-LXC has served as an IP “clean team” in mergers and acquisitions (M&A) to avoid the risk of trade secrets contamination of the buyer.

TESTIMONIALS

Professor Davé is a fine attorney and expert in IP affairs. We also had the opportunity to work together on a case involving patent infringement and trade secret misappropriation. Professor Davé demonstrated at all times clear strategic thinking in planning the course of a major litigation. I would always welcome the opportunity to work with him in the future.

Randall R. Rader: Former Chief Judge, Federal Circuit

Raj has been my primary attorney for over a decade in enabling me as an inventor, and my firms (a world leading chip manufacturer, and a biotech startup), to establish and maintain high value intellectual property estates. Raj has unique skills at creating IP strategies, drafting applications, and prosecuting them to successful outcomes even in the face of sometimes difficult examination challenges. It also should be noted that these capabilities span the IP communities across the globe. I personally would not hesitate in recommending Raj and his team for those who want their very best shot at creating and defending their own IP estates.

Gordon Holt: Chief Scientific Office, Northshore Bio

TESTIMONIALS

Dr. Raj Davé has been our intellectual property counsel for nearly 20 years. His patent work, legal opinions, and general IP counsel has been instrumental in enabling Toray Plastics (America), Inc. to protect its IP and implement freedom-to-operate in its business goals. Dr. Davé deep expertise in patent and IP matters is well-regarded within our company and of great value. We would highly recommend Dr. Davé and his firm's services.

Ken Chang: Sr. Director New Business Development, Toray Plastics (America), Inc.

Raj helped me understand the importance of a proper IP strategy and did a great job helping our R&D to file precise patents. Thanks to Raj's assistance we were able to create a significant addition to our companies' value and reputation!

Philip Thonhauser: Chief Commercial Officer, AFCO-ZEP, Global Food & Beverage Division

TESTIMONIALS

Raj has an uncanny ability to get patents approved. I have used his services for 2 applications and am happy to talk with anyone who needs more information.

Cathy Shachaf: Entrepreneur, Medical Technologies

As an inventor of over 80 granted US patents, I am very fortunate to retain Raj and his firm, Davé Law Group, to help me. I have known Raj for nearly 20 years. Raj is exceptional among the many patent lawyers with whom I have worked in my professional career. His service covers a wide spectrum of disciplines, from biotech and nanotech to semiconductor and engineering. I really appreciate his efforts in understanding investor's goals. He provides valuable advice and guidance on patent strategies, which are extremely important for startups. His work is of high quality and his fees are very transparent and reasonable. In fact, Raj provides suggestions to reduce costs without sacrificing quality. When I work with Raj, I do not feel that I am his client, but a friend and a colleague of his team. I highly recommend Raj and his firm to anyone who needs legal advice on patents and trademarks.

Xing Su: CEO, Ampliwise Inc.

TESTIMONIALS

Dr. Raj Dave is extremely competent and experienced Patent attorney. I have not met a more critical-thinking lawyer who understands the patent theory and practice so thoroughly. He is a great teacher on many aspects of international and US law. He can navigate and guide any inventor how to think strategically about patent landscape and make the most of the inventor's ideas. We've certainly benefited working closely with him, and his extensive international team.

Ranbir Singh: President, GeneSiC Semiconductor Inc.

Davé Law was recommended to me in 2017 for the patent work we needed done. The firm and in particular Raj Davé has been responsive, thoughtful, available and has proven extraordinarily diligent and creative. They are a great partner in our venture and we're thankful for their help and advice.

Michael Hewins: President, Hewins Ventures

TESTIMONIALS

We have had a great experience working with Dr. Raj Dave on our US patent applications over the past couple of years. Raj has amazing breadth and depth of knowledge about every aspect of the patent process both within the US and abroad. He is a pleasure to work with and I would highly recommend him if you are looking for an experienced, professional patent attorney!

Siddarth Sundaresan: Vice-President, GeneSiC Semiconductor Inc.

When I started working with Dr. Raj Dave, it quickly became apparent the high level of proficiency he has in patent law. Furthermore, the highly knowledgeable technical team at Davé Law Group were an absolute pleasure to work with. We were able to work on a very tight timeline, thanks to their help. I look forward to working with Dr. Raj Dave and his team in the near future!

Jyotiska Biswas: Founder, ThinkTrends

TESTIMONIALS

Raj and his firm have performed excellent and thorough work for us in a complex Intellectual Property and Patent review of several different families of electrochemical material and process patents on an international basis. Not only was the review and work done very professionally, timely and cost effectively, they provided Non-Infringement Opinions plus reviews on Freedom to operate and Validity opinions and strategic counsel and input. Their work was truly first class and I can highly recommend the Dave Law Group, LLC firm for any and all types of Intellectual Property work.

T. Joseph Fisher, III: CEO, Reliance Lithium Werks Group
